Time: 9:30 am.

Approximate Total Tour Time: 2-2.5 hours. Average paddle time is 1.5-2 hours

Itinerary

Our Morro Bay short kayak tour is an action packed guided tour designed to optimize your time on the wildlife rich waters of Morro Bay National Estuary, which is protected from the open ocean by a four mile long sandspit. We don't visit the sand dunes on the west side of the bay (as we do on our [half day classic tour](#)) but there are plenty of birds as well as other wildlife to see and fun to be had for beginners and experts alike on this kayak tour. Concentrating on the east side of the bay, the places your naturalist guide may take you to visit include an oyster farm, a harbor seal haul out area, a heron rookery and you have chances to possibly see otters. This trip is an excellent choice for all paddlers, including beginners and family groups.

Climate / Weather

The climate along the coast in Morro Bay is temperate year round, with daily high temperatures rarely exceeding the mid 50s to mid 70s range with most days having highs somewhere in the 60s. Spring days are often breezy and in summer there is often fog for at least part of the day. Fall tends to have the warmest and clearest weather. In winter we may encounter rain, but a significant number of winter days on the bay feature calm conditions and crystal clear air.
